Lenovo ThinkPad X61t Tablet Intel® Core™ 2 Duo L7700 30,7 cm (12.1") Windows Vista Business:

The ThinkPad X61 Tablet puts a new style on tablet computing with features that make the transition from pen and paper intuitive and user-friendly. With SuperView, a direct bonding technology in SXGA+ resolution screens, users experience lower reflectivity than similar panel technologies for excellent readability outdoors, even in direct sunlight. The technology helps prevent scratching, making the Tablet PC extremely durable under harsh conditions. Also, with the Microsoft® Windows® Vista™ operating system, users can train their notebook to recognize their own unique handwriting. Individuals can also navigate and edit shortcuts more smoothly using pen flick gestures and easily see when a pen or fingertip acts as a cursor.
